Subject: About the improvement of the Noise when using CPT panel in 32" TV

Due to the noise appear when using the CPT (CLAA320WA01-CY) in Jointek 32" LCD TV, It is due to the PWM control of the back light. There is the improvement as below:

1. Delete the Q12
2. Replace the R207 from 1Kohm to 47Kohm.

Please contact us if you have any question.
